Westley Engineering is situated close to Birmingham City Centre in Pritchett Street. The most direct route is to approach the city centre using the Aston Expressway (A38M) from junction 6 of the M6, taking the second exit off the expressway and at the roundabout the third exit onto the A4540 Newtown Middleway. At the first set of traffic lights turn left onto the A34 and then first left into Pritchett Street. If approaching from the south west head for Birmingham City Centre along the A38. Pritchett Street can be accessed directly off the A38 just prior to the start of the Aston Expressway.
